SUMMARY

Full-Stack Developer with **5+ years** delivering enterprise applications on **.NET Core, Angular, and Azure** for global clients (Haier, Fonterra, Arla, Carrier). Signature strength is **database engineering** — schema design, query optimization, and cross-DB integration; cut a reporting query **from ~40s to under 2s** and built a **SQL Server ↔ PostgreSQL pipeline syncing 1M+ records**. Backed by **20+ open-source projects** and a **live portfolio** (sauravsrivastav22.github.io).

CORE STRENGTHS

- Backend (.NET):** .NET Core, C#, ASP.NET MVC, Blazor, EF Core, Microservices, RESTful APIs | **Frontend:** Angular, TypeScript, responsive UI
- Database Engineering:** schema design, query & index optimization, stored procedures, DB-to-DB pipelines, SSIS | **Cloud/DevOps:** Azure, Docker, CI/CD

WORK EXPERIENCE

Software Developer — WIN Information Technology Pvt Ltd

Oct 2021 – Present

- Independently owned the data-integration layer end-to-end**, architecting **DB-to-DB pipelines** (SQL Server ↔ PostgreSQL) syncing **1M+ records** reliably.
- Redesigned indexing and eliminated N+1 queries** on high-volume reporting tables (EF Core + T-SQL), cutting a core report **from ~40s to under 2s**.
- Designed and deployed **microservices REST APIs on Azure**, containerized with **Docker** and shipped via **CI/CD**.
- Built full-stack modules with **.NET Core, Angular, and Blazor** for Haier, Fonterra, Arla, and Carrier.
- Contributed to and **provide live production support for 40+ enterprise applications** in an Agile team (healthcare, ERP, integration).

Associate Software Engineer — Indus Net Technologies, Kolkata

Mar 2021 – Sep 2021

- Developed full-stack features with **Angular, Node.js, MongoDB**; **tuned queries to cut API response times ~25%**.

KEY PROJECTS

HMIS Empower — Haier Market Intelligence System (WINIT Client)

- Deployed on-site at Haier for ~2 years**; web + mobile platform for **1,000+ field users**; designed/optimized the SQL schema for sales, inventory & reporting.
- Integrated with the **Distribution Management System (DMS)**; **Firebase + FCM** real-time sync; scaled to **2x growth, zero downtime**.

AI-Rasheed Food (Yaumi) — ASP.NET MVC, 500+ daily users

- Sales, pricing, promotions & product-sequencing modules; order & billing system processing **1K+ transactions/month**; inventory tracking.

AI-Powered Cross-Platform App | Fonterra | BloodFang (Personal)

- Cross-platform app on **microservices .NET Core + PostgreSQL / Azure**, **10K+ API requests/day**, Docker + CI/CD, stored-proc automation.
- Fonterra: **Angular + .NET Core / SQL Server** apps with dashboards, **RBAC**, reusable components. BloodFang (Live: bloodfang-anime.web.app): full-stack **React 19 + Express** app aggregating **multiple external APIs**, with React Router & Firebase.

SKILLS

.NET — .NET Core · C# · ASP.NET MVC · Blazor · EF Core · Microservices · REST APIs · Node.js | **Frontend** — Angular · React · TypeScript · JavaScript · jQuery · HTML5 · CSS3

Databases — SQL Server · PostgreSQL · Oracle · T-SQL · Stored Procs & Jobs · Query Optimization · EF Core · DB-to-DB Pipelines · SSIS · ADO.NET

Cloud/DevOps — Azure · Docker · CI/CD · Git | **Tools** — Visual Studio · SSMS · Postman · IIS

EDUCATION & CERTIFICATIONS

B.Tech, Computer Science & Engineering — JIS College of Engineering, Kalyani (2016 – 2020)

Certifications: **Data Analysis Using Python** — IBM · **Google Data Analytics** — Google · **Data Science using Python & R** — Webtek Labs
